

Exam Information

Design Optimization

TMKT48

Computer Exam

- Will be held in Bifrost and Valhall
 - See where you should go on Lisam
- Wait outside until the exam people tell you that you can enter
- Bring pen or pencil
 - Optional: Dictionary

Computer Exam

- The answers should be given on paper using your pen/pencil
- The exam consists of
 - Theoretical questions that you need to answer in writing using English or Swedish and do strict mathematical formulations
 - Practical problems solved using MATLAB

Allowed Tools

- All material that you have on your computer account, including
 - MATLAB scripts
 - Lectures
 - Lecture Notes
- Allowed Physical Material
 - Pen/Pencil
 - Dictionary
 - Ruler

Rules

- You should work individually
- NO COMMUNICATION WITH OTHER PEOPLE IS ALLOWED

When you are finished

1. Hand in your answer sheets to the exam people
2. Get a USB-memory
3. Upload the files from the exam to the USB-stick.
 1. Put them in a folder with your exam-number
4. Hand the USB-memory back to the exam people
5. You can leave

The reason for appending the files is that you might get some points even if your answer was wrong

Help during the Exam

- Teachers will visit the exam twice
- You will NOT get help to solve problems
- You might get help in interpreting things that you think are uncertain/ambiguous.

Recomended Approach

- The exam will take a long time if you look everything up during the exam
 - It is recommended to begin with the tasks that you think you can solve without looking so much up
 - Then you know how much time you have to look things up
